

## AviationManuals Launches iPad App for its ARC SMS Online Platform

*App provides improved mobility and offline access to manage risk assessments, safety management forms, and documents*

**Washington, D.C., May 9, 2018** – AviationManuals, the world’s leading provider of aircraft manual development services and Safety Management System (SMS) software for business aviation, announced today the release of its new ARC iPad app. The app will complement AviationManuals’ intuitive online modular SMS platform, making it even easier for business aviation professionals to manage their risk assessments, forms, and documents while offline.

“The app was designed with ease of use in mind to encourage even more SMS participation by ARC users,” said AviationManuals CEO Mark Baier. “Our App simplifies the SMS process because users are able to initiate, and manage risk assessments and forms, as well as manage their documentation while offline. Mobile applications for SMS should help drive a broader acceptance and use of SMS.”

AviationManuals’ ARC SMS modular platform is the most configurable SMS available on the market today. The App conveniently syncs clients’ custom risk assessments and forms, as well as provides access to the latest versions of their documents. Users also have the ability to toggle back and forth between the online and mobile versions of ARC for increased convenience and productivity.

AviationManuals’ ARC APP is available for download from the Apple App Store however the App is currently only accessible to ARC’s online SMS software subscribers.

### **Aviation Operations Resources**

ARC, an SMS software, continues to add new users every week due to it being the only highly configurable and modular Safety Management System software available, allowing operators to choose only what they need. AviationManuals current focus is on Mobile Safety Management Systems through easy-to-use modules and apps.

AviationManuals also delivers International Operations / Procedures Manuals and custom Flight/General Operations Manuals for numerous registries. The company has over 800 subscribers to its International Operations Update Service and its Flight Operations Reissue Service.

## **About AviationManuals**

AviationManuals, based in the Washington, D.C. area, provides operations manuals and SMS software to business aviation flight departments, aircraft management companies, and independent owner / operators worldwide. Founded in 1996, the company has produced thousands of manuals and supports over half of IS-BAO registered operators.

Products and services include Safety Management System (SMS) software, Flight / General Operations Manuals, International Procedures Manuals, Minimum Equipment Lists, Emergency Response Plans, Internal Audit Programs, and Letters of Authorization (LOA) support for RVSM, Data Link (CPDLC / ADS-C), EFBs, and ADS-B operations.

AviationManuals is a member of the National Business Aviation Association (NBAA) and a part of its Leadership Council, International Business Aviation Council (IBAC), Flight Safety Foundation, and National Aircraft Resale Association (NARA).
